The Comprehensive Information and Orientation Programme

The purpose of CIOP is to establish coherence between the information and orientation programmes delivered by Countries of Origin and Destination, accounting for the entire migrant journey, from pre-employment, through pre-departure, to post-arrival.

CIOP Reports | Set 1

Pre-Employment Orientation

[1] - This provides readers with a clear understanding of initiatives in select ADD Countries of Origin that aim to provide information and guidance to those considering foreign employment.

[2] - This proposes a series of recommended and optional PEO modules, designed be an added resource for countries wishing to tailor the modules to their national contexts.

CIOP Reports | Set 2

Pre-Departure Orientation

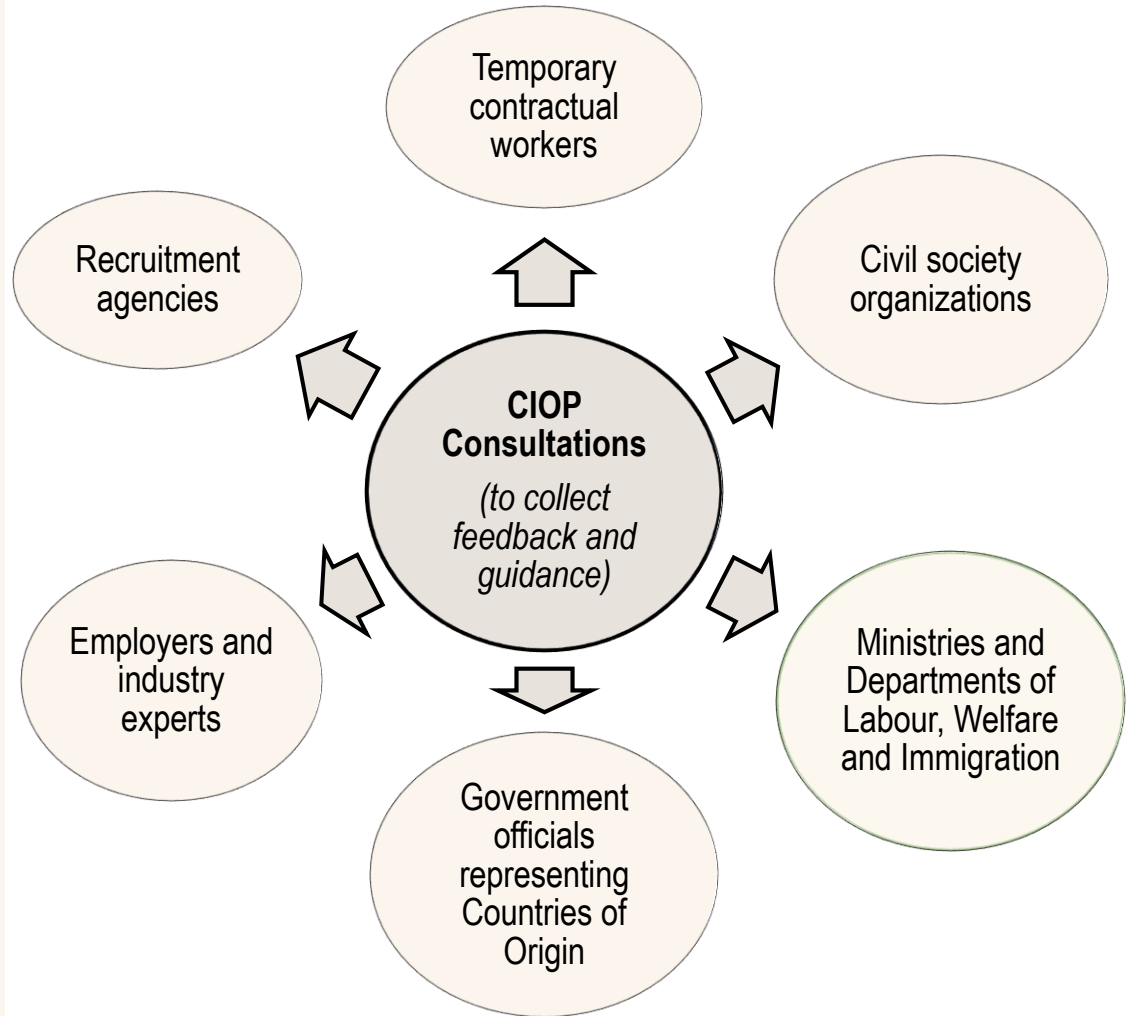

[3] - As PDO is the most common orientation noted to date, this maps relevant programming in Countries of Origin, as well as notes best practices and provides consideration of different countries.

[4] - This focuses on further refining different components of PDO that could support the information needs of temporary contractual workers leaving their home countries.

Understanding Post-Arrival Orientation (PAO)

...to better equip temporary contractual workers with an understanding of local labour laws, socio-cultural norms and practices, workplace expectations, good conduct and other relevant topics.

Gulf State focal points were invited to provide further feedback on national interventions on orientations for temporary contractual workers

CIOP Reports | Set 3

Post-Arrival Orientation

[5] - This includes key findings from CIOP consultations, best practices and recommendations for the consideration of different ADD Countries of Destination.

[6] - This proposes a series of PAO modules, and acts as a useful reference point for countries wishing to establish or further refine a PAO programme.
