Gulf Heath Council
Wafid Program

The Gulf Health Council is an active Gulf organization in the health field established in **1976 AD.**

Vision

A Gulf organization with a regional position, with a pivotal role, actively contributes to advancing gulf cooperation and joint health action to achieve sustainable health.

Mission

Promoting and upgrading the health sector in member states by providing constructive initiatives, responding to regional and global health issues and challenges, supporting decision-making and health policies, and coordinating joint Gulf action to promote cooperation and integration among member states in the health field, in order to achieve the Council's objectives.

WAFID

In **1995**, the Gulf Health council launched a program to conduct medical examinations for expatriates entering GCC countries, prioritizing the health security of the Gulf community. This involved the formation of committees to establish health requirements and examination guidelines. In **2016**, the Supreme Council reiterated its dedication to the program, underscoring its significance and ongoing implementation.

The objectives of Wafid

Prevention
From infectious diseases

Awareness
About medical examinations

Health Suitability
Free from chronic diseases

Reliability
Ensure accuracy and quality
